

Intel[®] NUC Kit NUC6i3SYH

MINI PC, FULL-SIZED PERFORMANCE

Built with Intel's newest technology,
6th generation Intel[®] Core™ i3 processor

The Shape That Fits the Future.

Intel® NUC

MINI PC, FULL-SIZED PERFORMANCE

Your home entertainment solution

Get ready to be amazed at what small can do. The Intel® NUC kit built with a 6th generation Intel® Core™ i3 processor lets you create a home entertainment system in 4 small inches. Whether you want to stream beats, basketball games, or B-movies, Intel NUC is a Mini PC kit that has the performance you need for a home entertainment system in a shape that fits the future.

LOVE WHAT YOU SEE

With a full-sized HDMI* port, you can see zombies and car chases in even more brilliant 4K resolution than before.

RAISE THE BAR ON PC PERFORMANCE

We take our newest 6th generation Intel Core i3 processor—built on entirely new architecture—and pack it all into an energy efficient 4 inches square. It's a Mini PC that's small in size but big on performance.

SEE THAT?

Intel® HD Graphics 520¹ with 4K display capability provide a seamless visual experience that requires no add-in card for vibrant HD video playback and increased speed and performance.

HEAR THAT?

With 7.1 surround sound via HDMI,* you can hear music and movies the way they were meant to sound.

CUT THE CORDS, NOT THE PERFORMANCE

With built-in Intel® wireless 802.11ac and Bluetooth* 4.1, you can easily stream photos, movies, and music.

CHANGE THE CHANNEL WITHOUT MOVING A FINGER

With consumer infrared capability, you can control your Intel® NUC home theater the same way you control your television: from your couch.
